

Rio Preparations

Compiled And Analysed By
MISSION OLYMPIC CELL
SPORTS AUTHORITY OF INDIA

FOREWORD

SAI has made an attempt to carry out a broad assessment of qualified athletes' performance prospects at the forthcoming Rio Olympics 2016. The report also looks at additional athletes likely to qualify in disciplines such as Athletics, Boxing and Golf. It is expected that a total of 110-120 athletes may finally qualify for Rio Olympics against 96 as on date.

2. The report is based on compilation of data with respect to each athlete's performance in major international events during the last three years and a comparative analysis with respect to medal performance bench-marks set up at last Olympics as far as measurable sports are concerned. With respect to non-measurable sports such as Boxing, Wrestling, Badminton, Tennis and Table Tennis, the analysis is based upon qualified athletes' performance against top ranking/medal winning athletes in respective disciplines in addition to current form.

3. The assessment/analysis of athletes also brings out the stage up to which an athlete/team is expected to progress in Rio Olympics i.e. Quarter Finals, Semi Finals, Finals, 8th / 16th rank or podium finish. Finally, a broad assessment of total number of medals that are expected to be won by India during Rio Olympics has also been attempted.

4. Notwithstanding the above analysis, there is always an element of uncertainty as also surprise element in sports, which makes it difficult to make any accurate prediction. The attempt of SAI should, therefore, be seen more as an assessment of potential to perform rather than actual prediction.

5. I would like to compliment Commodore Sudhir Setia, Executive Director (TEAMS) and all Project Officers and SAI Coaching Diploma interns who were associated with this work for the efforts made by them to prepare this report.
