**SUBJECT: NORMS FOR EXPENDITURE UNDER KHELO INDIA TALENT DEVELOPMENT & FUNDING
TO NATIONAL/REGIONAL/STATE ACADEMIES**

In partial modification of the Office Order 3(5)/Sectt./KITD/HPC/2018-19 dated 02.08.2018.
The approval of Competent Authority is hereby conveyed for modifications in expenditure norms of Khelo India Talent Development which will be effective from 02.08.2018.

1. AN OVERVIEW OF KHELO INDIA

- a) The Khelo India Scheme aims to encourage sports all over the country. It aims at strengthening the sports ecosystem in India by promoting the twin objectives of mass participation and promotion of excellence in sports. Further, the major aim of the program is to help Indian sportspersons to reach the pinnacle of world sports focusing at the initial stage a podium finish at the 2024 and 2028 Olympics.
- b) The scheme has 12 verticals including Talent Search & Development & funding to the National/Regional/State academies. The operational guideline of these two verticals is contained in notification No F No 54-1/MYAS/MDS/2017 Dated 26th December. Khelo India Talent Search & Development (KITD) envisages identification of 1,000 athletes (to be called Khelo India Athlete -KIA) every year through measures such as the holding of Khelo India competitions, NSF/SGFI competitions, etc. and by other methodologies for identification of talent. The Government has already formed committees such as TIDC (Talent Identification Development Committee) and TSC (Talent Screening Committee) consisting of eminent sportspersons who are recipient of honors such as Padma Shree awardees, Arjuna Awardees, Dronacharya awardees, senior coaches and representatives of National sports Federations. A High Powered Committee (HPC) has also been constituted to take all policy decisions. Once the athlete is identified as KIA, the funding of Rs 5 lac per athlete per year is available under the vertical "Khelo India Search & Development" vertical. The grant for training, equipment, sports science support will continue till such time as the athlete manifests progress and potential up to maximum of eight years. There will be weeding out every year based on performance bench mark.

- c) The identified sports talent will be given the option to join SAI Sports academies, State Sports Academies or Sports academies established by private sector (including sports persons). Grants-in-aid can be provided under the vertical "Funding to National/Regional/State Academies" for establishment, operation and maintenance of sports academies in respect of identified disciplines to these academies.
- d) On the basis of recommendation of TIDC, HPC would grant accreditation to the academies provisionally for a period of one year initially. Subsequently, long term agreement would be entered into with accredited academies. The accreditation will be an ongoing process & more and more academies will be accredited to allow KIA to train at nearest location. The gap analysis of the academies would be done & the academies not meeting the bench mark can be de-accredited.
